The Department of Education and Early Childhood Development has set the rate for wage enhancements for eligible employees at:

LICENSING AND MONITORING PERFORMANCE INDICATORS

In New Brunswick, a Certificate of Approval is required to operate a day care facility. Certificates of Approval are issued for a twelve month period. However, under specific conditions, a temporary approval may be issued for a designated period of time, not to exceed six months.

Early Childhood Services Coordinators approve and monitor the child day care facilities, investigate complaints and provide program support. The approval and renewal process ensures minimal standards of health, safety and well being for young children in non-parental care.

The chart below indicates the annual average percentage of facilities by region operating with a valid Certificate of Approval. A valid Certificate of Approval is an indicator that the day care facility has been inspected and is in compliance with the Day Care Regulation 83-85 prior to expiry of their current Certificate.
