Introduction

The Fees Act (see **Appendix A**) received Royal Assent in the spring of 2008. This legislation, which applies to Part I of the public service, established a transparent process governing fees charged by government departments.

It requires detailed information to be made public on all upcoming fee increases and all new fees at least 60 days before implementation by government departments.

The Act also specifies that, by January 31st each year, the Minister of Finance and Treasury Board must file a document containing such information with the Clerk of the Legislative Assembly. The 2023 document contains detailed information regarding fee changes and/or new fees planned by government departments for the upcoming fiscal year of 2023-2024.

The report also includes information such as the legal authority to charge each fee, the current fee amount, the new fee amount, effective date of the change, revenue details, and departmental contact information.

The first section in the 2023 Annual Report summarizes fee changes and/or new fees approved by Treasury Board since publication of the 2022 Annual Report.

The second section summarizes upcoming fee changes and/or new fees approved by Treasury Board for the fiscal year 2023-2024. In keeping with the requirement of 60-day minimum notice to the public, none of these fees will take effect until at least April 1, 2023. It is recommended that the effective dates specified in this report be verified with the respective departments as they may be extended following the publication of this report.

It should be noted that the Fees Act does allow a department to create or increase fees during the upcoming fiscal year. If this occurs, the individual department will file a document with the Clerk of the Legislative Assembly containing the same type of details as are included in this report. The fee change is also subject to the requirement of a minimum 60-day notice to the public.

If there are any mid-year changes, the details of these single filings will be summarized and published in the 2024 report on fees. This compilation will maintain accuracy and transparency concerning fees.

How to Read this Report

Section 3(2) of the *Fees Act* requires this *Annual Report on Fees* to present the following information for new and increased fees proposed for the next fiscal year:

- (a) the name of the department that proposed the fee;
- (b) the name of the fee;
- (c) the legislative authority for the fee;
- (d) the amount of the current fee, if any;
- (e) the amount of the new fee or the increased fee;
- (f) the effective date for the new fee or the increased fee;
- (g) the total annual revenue expected from the fee;
- (h) the change in the annual revenue expected from the fee; and
- (i) the name of the contact person.

In this report, the above information is presented in the following format:

Department Name	Name of the fee	
Contact: Name, Telephone Number (506)	<i>Name of the Act</i> Regulation Number	
Current Fee: \$X	New Annual Revenue Estimate:	\$AA,AAA
Proposed Fee: \$Y		
Effective Date: Month, Day, Year	Change in Annual Revenue:	\$B,BBB
Comments:		

Readers should note that “New Annual Revenue Estimate” presents the total expected revenue from the fee at the proposed or increased rate for the upcoming fiscal year. “Change in Annual Revenue” indicates how much additional annual revenue is expected per fiscal year from the new fee rate, as opposed to the prior rate.

While the Minister of Finance and Treasury Board is responsible to file this document each January with the Clerk of the Legislative Assembly, information about particular fees should always be obtained from the specific departments and contacts listed in the description of each fee.

This document, and future editions, will be posted in the Publications section of the Finance and Treasury Board department’s website at <http://www2.gnb.ca/content/gnb/en/departments/finance/publications.html>

General information about fees charged by all government departments is available on the government’s web-based Directory of Services. This directory is located at <http://www2.gnb.ca/content/gnb/en/services.html> (Key word: fees)

Note: Rates that were filed with the Clerk of the Legislative Assembly on June 28, 2022, were revised based on industry comments following the 28-day public review period of the draft Regulation. The Regulation was amended accordingly and the revised rates came into effect on September 1, 2022.

This change is being proposed based on revised cost estimates since the last fee update in 2004. Please note that the change in revenues described above are the figures compared to the revenue collected in 2021-22.

Health	Licence to Operate a Water Circulation System
Contact: Janelle LeBlanc, (506) 850-8028	<i>Public Health Act</i> Regulation number 2022-39
Current Fee: \$0 Proposed Fee: \$450 Effective Date: April 1, 2023	New Annual Revenue Estimate: \$225,000 Change in Annual Revenue: \$225,000
Comments: The application fee for a licence to operate a water circulation system is \$450 for each cooling tower in the system that is the subject of the application and is required as a yearly cost recovery for the IT solution which supports the administration of the program. The IT solution greatly reduces the amount of work required to monitor compliance with the regulations and makes it easier for the regulated community to meet its obligations under the law by providing alerts and reminders for required actions coming up or missed.

Tourism, Heritage and Culture		Entry Fees for Hopewell Rocks	
Contact: Steve Harris, (506) 478-4176		<i>Parks Act</i> General Regulation 85-104	
Current Fee: See Below Proposed Fee: See Below Effective Date: April 1, 2023		New Annual Revenue Estimate: 2023-2024: \$4,900,000 2024-2025: \$4,988,000 Change in Annual Revenue: 2023-2024: \$493,000 2024-2025: \$99,760	
Comments: Hopewell Rocks is a unique experience with little to compare it to. A 2021 analysis identified that the cost to operate the Attraction was 26% higher than revenues received from entry fees. THC proposes that this gap be eliminated. 2023/2024 is the second year of increases and averages 11%. The third year, 2024/2025 provides for a modest 2% increase. Hopewell Rocks are part of a Special Operating Agency in which all revenues are retained to be used for operating and capital budgets.
